

We are the official communication camp for toddlers. Our camp duration is five weeks. Our main goal and goal is to provide kids with a safe, friendly, and fun learning environment. We implement fun ways to learn art, math, science, English, and most importantly communication. We honor each child's individual skills and personality. If our little toddlers can learn to communicate in a more understanding way with us, then we as adults can more easily nurture and provide for them. By the time each child finishes our five week camp, they shall have the communication skills and tools to express to you effectively.

**Here are the top toddler camps that I researched.**

1. **La nature kids** <http://www.lanaturekids.com/>

weakness=web design is poor and ages 0-3 are not accepted into camp

2. <http://www.calicamp.com/#welcome>

weakness= video on pages background is very distracting(overwhelming)

The people that will be viewing this site will be

- Low income parents interested in enrolling their children
- Future employees
- sponsors
- volunteers
